

Leonard Laskow, M.D.

Author of *Healing With Love* presents

OPENING TO ONENESS THROUGH LOVE

September 13 – 18, 2009 - Sunday – Friday
Esalen Institute – Big Sur, California

In this past year, despite the appearance of conflict, humanity is experiencing an acceleration of the awakening process. Now, in a matter of days instead of lifetimes, it is possible to realize your true nature. This seminar provides the opportunity to directly experience the loving presence that you really are beyond the conditioning and concepts of who you think you are. In awakening to the oneness underlying our uniqueness, we are divinely embraced.

Using step-by-step processes that blend ancient wisdom with modern scientific research, you will be encouraged to release the limitations that veil your essential nature. These practices help to quiet the mind, bring you more peace, joy, and abundance, and allow an intuitive, loving presence to unfold. It is this loving presence that empowers you to:

- Clear personal and ancestral conditioning and “treasured” wounds that foster pain, illness, and suffering
- Support your body to heal, unimpeded by mental and emotional blocks
- Create what is most wanted in your life
- Open to divine grace, the true source of awakening

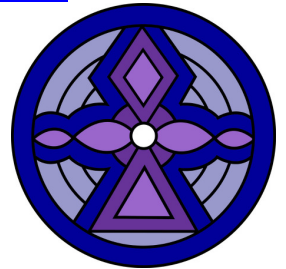

This workshop is suitable for therapists and helping professionals as well as all those interested in exploring a loving presence.

As the heart opens, the truth and splendor of who we really are is finally revealed and expressed as inner peace, love, joy and freedom.
